Interregional cooperation in Europe

Over 2,000 partners from regions all over Europe have been working together in 258 Interreg Europe projects (see the list on the other side). In the projects, they have been exchanging smart and sustainable solutions developed and tested in their regions. Many solutions have already been transferred into other local, regional or national policies. All involved regions benefit from the exchange.

Number of project partners

- No partners
- Low (1-8 partners)
- Medium (9-22 partners)
- High (23-49 partners)
